ESI TECHNOLOGIES IS NOW A VERITAS PLATINUM PARTNER

ESI has achieved the Expert Level in Archiving Competency in addition to its Expert Level in Enterprise backup and recovery

Montreal, QC – February 25th, 2016 — ESI is proud to announce that it has now achieved the Expert Level in the Archiving Competency with its long-time partner Veritas. This new technical validation achieved by ESI now completes the manufacturer's requirements to obtain the Platinum Level, the highest level of partnership with Veritas.

The Veritas Expert level Competency attainment is based on a validation process that examines a partner's capabilities, customer's satisfaction, and performance. Achieving the Platinum Level shows ESI's validated proficiency in delivering customer value across the related solution areas.

"Congratulations to ESI Technologies on achieving Platinum level in the Veritas Partner Force program" declared Rick Kramer, Vice President of Americas Channel Sales from Veritas.

"Platinum status is earned by our most invested and strategic partners - those that have repeatedly demonstrated their ability to help our mutual customers tackle Information Management challenges from pre-sales consulting to delivery."

"This achievement is an eloquent demonstration of our long-term commitment to delivering customer value and shows our engagement with our clients to deliver the best technologies that software vendors like Veritas have to offer" stated Patrick Naoum, ESI Executive VP – Strategy, Alliances & Client Solutions. *"This new Platinum level is the result of our engagement and our strong belief that Veritas solutions can truly benefit customers who are looking in investing in best-of-breed data management technologies. We are very proud of this accomplishment!"*

About ESI Information Technologies

As a reference and leader in the fields of datacenter design and deployment, storage and virtualization solutions integration, ESI applies its expertise to ensure the security, availability and efficient management of our clients' data and the cost-effective control of its growth. Regardless of the location of its clients' applications or data and of delivery method (external, cloud-based or on-premises), ESI enables its clients to get the most out of their IT investments to support their expected business outcomes. ESI has its head office in Montreal, and business locations in Quebec City and Toronto. To learn more about ESI, visit www.esitechnologies.com.
