ESI TECHNOLOGIES IS NOW VMWARE PREMIER PARTNER

ESI has achieved the highest level of solution selling partnership at VMware

Montreal, QC – March 17th, 2016 — ESI is proud to announce that it has now achieved the Premier Partner Level with VMware, the highest level offered by the manufacturer. This partnership can only be achieved if a solution integrator is invited to join by VMware. VMware chooses resellers based on their level of commitment to selling their products.

“This achievement is an eloquent demonstration of our long-term commitment to delivering customer value and shows our engagement with our clients to deliver the best technologies that software vendors like VMware have to offer” stated Patrick Naoum, ESI Executive VP – Strategy, Alliances & Client Solutions. *“This new Premier Partner level shows our customers that ESI is dedicated to providing high-quality VMware solutions. This recognition from one of our key partners is the result of our ongoing commitment with their leading solutions in the industry.”*

About ESI Information Technologies

As a reference and leader in the fields of datacenter design and deployment, storage and virtualization solutions integration, ESI applies its expertise to ensure the security, availability and efficient management of our clients' data and the cost-effective control of its growth. Regardless of the location of its clients' applications or data and of delivery method (external, cloud-based or on-premises), ESI enables its clients to get the most out of their IT investments to support their expected business outcomes. ESI has its head office in Montreal, and business locations in Quebec City and Toronto. To learn more about ESI, visit www.esitechnologies.com.

About VMware

VMware is a global leader in cloud infrastructure and business mobility. Built on VMware's industry-leading virtualization technology, our solutions deliver a brave new model of IT that is fluid, instant and more secure. Customers can innovate faster by rapidly developing, automatically delivering and more safely consuming any application. With 2015 revenues of \$6.6 billion, VMware has more than 500,000 customers and 75,000 partners. The company is headquartered in Silicon Valley with offices throughout the world and can be found online at www.vmware.com.
